

15 January 2021

To whom this may concern:

_____ is a National Ski Patrol member and is certified Emergency Medical Responder. Patrol members provide emergency medical services for outdoor recreational participants at Montage Mountain Resorts in Scranton PA. Due to this role, it is critical that this NSP member is vaccinated against COVID-19.

National Ski Patrol Emergency Medical Responders (NSP EMR's) fall under the Pennsylvania COVID-19 Vaccination plan as Healthcare Personnel and fall into the Phase 1A vaccine immunization category. NSP EMR's are providing first aid indoors and outdoors in emergency health care settings and are likely to be exposed to or treat people with COVID-19. NSP EMR's also assist in the loading of injured patients into outdoor emergency transport devices, into first aid treatment centers, and ambulances. Due to the close physical interaction with the injured public, these NSP EMR's have the potential for direct or indirect exposure to patients, COVID 19, and infectious materials.

Please note that the National Ski Patrol is a federally chartered 501(c)(3) nonprofit, membership association and NSP members consist of both paid and unpaid emergency medical responders.

Thank you,

A handwritten signature in blue ink that reads "Jim Widenor".

Jim Widenor

Patrol Representative, Montage Ski Patrol
